SUMMARY

Web Developer with experience shipping production updates in **WordPress/PHP** and front-end (**JavaScript, HTML, CSS**). Strong in debugging and improving responsive UI/UX within existing codebases—delivering clean, maintainable fixes and iterative feature enhancements. Texas Army National Guard **Sergeant (E-5)** known for disciplined execution, clear communication, and ownership in fast-paced, team environments.

SKILLS

- Responsive Design
- JavaScript (ES6+)
- HTML5 / CSS3
- WordPress
- PHP
- Testing & Debugging
- Version Control & Workflow
- Chrome DevTools

PROFESSIONAL EXPERIENCE

Web Developer

Next90 LLC – Remote | September 2025 – February 2026

- Supported development of the New ACUnit WordPress website, delivering iterative UI and functionality updates using PHP, JavaScript, HTML, and CSS.
- Implemented a new “Ceiling” selection path in the Split System flow, enforcing business rules (restricted tonnage options; removed invalid combinations) to improve quote accuracy.
- Updated conditional logic to hide Gas Furnace for Ceiling and auto-select Electric/Heat Pump, reducing friction by skipping unnecessary steps in the user journey.
- Resolved responsive UI defects and improved component consistency (card sizing, alignment, spacing) to enhance usability across mobile and desktop breakpoints.
- Fixed a Home V2 header/logo mobile display issue by updating template behavior and scroll logic for reliable visibility and a cleaner UX.

- Performed debugging and QA in an existing codebase, validating changes across breakpoints and preventing regressions between product flows (Mini Split vs Split System).

Personnel Actions Analyst

Texas Military Department – Austin, TX | April 2021 – January 2025

- Streamlined the **Personnel Record Management System** (PEMS), reducing retrieval time by **30%** and minimizing data errors.
- Conducted a full audit and transitioned to a **digital filing system**, ensuring real-time updates and improved data accuracy.
- Optimized onboarding/offboarding processes, reducing processing time for personnel by **40%**.
- Coordinated cross-department workflows to **eliminate bottlenecks** and standardize documentation.
- Developed a **structured training program** for incoming HR personnel, improving new-hire productivity by **25%** within their first three months.
- Designed training modules, job aids, and mentorship programs to strengthen HR operational knowledge.
- Maintained personnel records and statistical data in compliance with regulations.

PROJECTS

React Portfolio Website

Tech: React, JavaScript, HTML, CSS

- Built a responsive portfolio site with reusable components and clean layout patterns to showcase web projects and skills.
- Implemented mobile-first styling and iterative UI refinements to ensure consistent presentation across devices.

EDUCATION AND TRAINING

Business Intelligence Analytics Program – TripleTen

Graduation: 2025

Coding Boot Camp Certificate Program – University of Texas at Austin

Graduation: 2024
